

Basement Fires

DESCRIPTION: The modern residential basement may be packed with electronic equipment and furnishings. A basement fire can present serious challenges for responding firefighting crews. This 16 hour course addresses the important issues such as size-up, strategy, tactics deployment and safety that fire officers and firefighters must address to safely and effectively extinguish a fire located in a basement.

PREREQUISITE: A certificate indicating a live fire training program (i.e. SBS, ZSFB, ELIF) or Fire Fighter I Certification.

FEE: \$100.00 per student.

CERTIFICATION: Chester County Public Safety Training Center certificate will be issued upon successful completion of this course.

REQUIREMENTS: Full turnout gear including SCBA with spare cylinder.

ENROLLMENT: Limited to 16 students per class.

REGISTRATION: Opens 10 September 2015. Sign up at: <http://destraining.chesco.org>

Saturday 21 November and Sunday 22 November

8:30 – 17:00

(Enrollment closes 13 November)

QUESTIONS: Please contact John Gillespie, Public Safety Training Specialist, at CCPSTC (610) 344-4241 or via email at jegillespie@chesco.org
